has successfully completed the online, non-credit Specialization

Data Analytics and Big Data

This specialization provides a comprehensive understanding of relational databases, data preprocessing, and big data technologies. Learners will explore database design, implementation, and applications, along with data preparation and analysis techniques. The specialization is designed to help data scientists and analysts manage and analyze large datasets efficiently using industry-standard tools.

Gerald Balekaki
Assistant Teaching
Professor of Computer
Science

Ming-Long Lam
Adjunct Faculty,
Computer Science

Yousef Elmehdwi
Associate Teaching
Professor of Computer
Science

Jawahar Panchal
Adjunct Faculty
Computer Science and
Finance

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
